The extended bus service now has six lines, carrying 14,000 passengers daily.

Debrecen

Several lines were opened to extend bus service between Debrecen and the nearby communities. In addition, a new streetcar line was opened between the Bajdosag Pharmaceutical Works and the government-operated sanatorium for tuberculosis patients, located near the Debrecen Nagyerdo.

Transportation facilities of Tatabanya were greatly improved. In the past few months, the transportation of this important mining town was bolstered by 26 new busses.
